CHAPTER ONE.

The Fourth of July Accidents Begin Early.

A Young Woman Shot in the Arm By a Careless Patriot.

It would be impossible to get over one national anniversary without more or less trouble from carelessly discharged fire arms and carelessness handling of fire-works, but this year the list is opened early.

About half past 9 o'clock last night a young woman named Mary Donovan, who has been an employee at the Metropolitan hotel for ten years past, went to visit a friend, Mrs. Hay, wife of an U. P. engineer, who resides on Fourteenth street between Dodge and Capital avenue. Miss Annie Jeanneman, who formerly kept a boarding house in the same vicinity, was calling at Mrs. Hay's at the same time.

There was a general shooting of fire-crackers, bombs, etc., going all over the town, and many were taking advantage of the unusual license of the occasion to discharge fire-arms. Among these was a young man named Crager, bartender at Mast Kennedy's saloon, who boards at Mrs. Hayes' hotel at 1 p. m., last Tuesday. He went to his room on that day and did not tell Mr. Wilde, his landlord, that he had an engagement at noon, but did not re-appear until the following night, when an examination of his room gave unmistakable evidence of his having attempted self destruction by opening the arteries of his neck and arm. He went up town, and on his return was told by Mr. Wilde that his room was preferable to his company. He said that was all right and went out again, going toward the river. Since then he has been neither seen nor heard from.

Mr. Wilde was well known at North Platte and vicinity, having been out there two years ago.

Between nine and ten o'clock yesterday, a young man Eldridge Dean, aged about 21 years, attempted to commit suicide by taking a dose of laudanum, but up to latest account he was still alive and there were fair prospects for his recovery. Dean has been in this city about two years having come here from Philadelphia, where his parents who are said to be in quite good circumstances, and who have sent him money from time to time. He worked for something over a year at Brownell Hall and subsequently went to North Platte and vicinity, having been out there two years ago. Mr. Thrall desires to call attention to the case, and requests people down the river to keep a lookout for "floaters", and if any should be identified as Hodges, to communicate at once with The Bee office.

Hodges was slender in build, about four feet seven inches in height and had a peculiar spot on his left cheek.

It is probable that this will not be the only fourth of July accident, and Mr. Crager may thank his lucky stars that the shot did not prove more serious.

LUXURIATING LE GEYT.
